05 / TESTIMONIALS

From the people *I create with.*

Two perspectives on what it’s like to work together, from guided video creation to a full day of live content.

“

Manuella was wonderful to work with! After she created my videos, I started getting more clients and received so many compliments.

I booked a package with her, and the experience was great from start to finish. She guided me through what to film, how to capture each shot, and how to send her the footage. We ended up with so much content!

10/10 — she’s my go-to whenever I need help.

“

After changing jobs, I decided to focus more on social media. I hired Manuella after seeing her marketing work with female fighters, and I’ve loved working with her!

With my package, she spends the day with me, capturing what I’m doing and posting in real time. It makes my life so much easier, and my followers feel like they’re right there with me throughout the day.
